Past Week:

HOVENSA, St. Croix, USVI: On August 22, EPA and DOJ, co-beneficiaries of the HOVENSA Environmental Response Trust (ERT), participated in a conference call with the ERT. The third beneficiary - the Government of the USVI – was unable to attend. EPA was represented by CASD and ORC. The call focused primarily on how the impending restart of the refinery may affect the ERT, and in some cases how it already is affecting the ERT. Issues discussed included the ERT's responsibilities as owner of refinery property, recent agreements between Limetree Bay Terminals and the USVI, and the potential

need to remediate mixed ERT/Limetree plumes in the future. The ERT cited and subsequently provided several documents for EPA's and DOJ's review. Additionally, the ERT noted the funding issue pertaining to the continued remediation of groundwater from the former St. Croix Petrochemical Corporation (SCPC), located at the former HOVENSA property on land leased to SCPC. HWPB will be coordinating with ORC regarding the appropriate next steps to be taken by EPA.
